DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 2, 5-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 2, line 2, is unclear how the first bend (32) is 90 degree. The examiner suggest that the terminology used in the claims should be consistent with the specification

Claims 5-8, a first bend, a second bend, a third bend is unclear, the examiner suggests that the terminology used in the claims should be consistent with the specification

Claim 7, lines 1-2, "the cover pre-step portion is at or about 90 degrees" is unclear. The pre-step (24) appears to be 180 degrees.

Claims 5-8 are not considered over prior art because of 35 USC 112 problems

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 2831

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by McMiller et al.

McMiller et al disclose a chassis cover (102) comprising a hem assembly (232), a chassis back (100) (re claim 1)

Re claim 2, a first bend and a second bend (Fig 4)

Re claims 3, 4, a hem lip comprising dimpled spring fingers (234), a hem edge (Fig 4).

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

Response to Arguments

Art Unit: 2831

Applicant's arguments filed 07-21-05 have been fully considered but they are not persuasive. Applicant argues (1) that McMiller does not result in a tortuous path to an EMR disposed to enter or leave the chassis assembly.

With respect to (1) the invention of McMiller is functioning as claimed.
